OVERSLEEVES

Oversleeves are designed to slip over the stretch arms of a jumpsuit and provide a fast falling suit with a little more range. They are made from Tactel lined with Ripstop, with stretch cuffs at both ends. Oversleeves are surprisingly effective if you are swooping in a tight suit and want some stopping power or would sometimes like to slow your current suit just a little. Oversleeves are available in any of the colours below marked with an "O".

WEIGHT BELTS

For some people even the tightest jumpsuit is not going to make them fall fast enough and the only solution is to gain weight. Our weight belts come in two sizes - small and medium, they are made from a durable lightweight cordura fabric and are equipped with up to 7 pockets which each take a 2 lb weight.

Two 25 mm webbing straps with fastex snaps attach the belt around the waist at the body's centre of gravity. Our weight belts are the only ones on the market that are fitted with straps that attach the belt to the lateral webbing on the rig, taking the load during opening shock.

Prices		Colour Preferences	
Oversleeves - Poly-Cotton	£23		
Oversleeves - Stretch	£28		
Weight Belt + 6lb (3kg)	£53	Waist Size:	
Weight Belt + 8lb (4kg)	£59	Waist Size:

GEAR BAGS

Symbi Gear Bags are made from hard wearing 4oz Nylon and take most rigs comfortably. The standard Bag has two large zip pockets on the outside that will take jumpsuit, frappe hat, documents and additional clothing. Each bag has a side handle so that the bag can be carried like a suitcase and two adjustable shoulder straps so that it can be used like a rucksack. The backpad of the bag is padded for comfort. The Slimlike is ideal for taking your rig on board lights as hand baggage.

PACKING MAT

Symbi Drag mats are made from the same hard wearing material as the Para Bags. They have two small pockets for rubber bands and pull-up cords and velcro tabs to hold the rig in place.

PADDED HELMET BAG

Designed to take all current full-faced and open faced hard helmets. The complete bag is padded to protect your helmet and includes a pocket for altimeter/audible, etc and comes with a strap to attach to a gear bag.

Symbi Gear Bags and Packing mats are available from stock in a wide variety of colours, so please give us your main colour preferences from the list below and we will do our best to accommodate you. Of course if you don't like the colours we are always happy to exchange or refund, providing the item is unused.
